

"NOW OR NEVER."

The Thoburne claimant will be discharged from prison in a few days, when he will have to go to the place where he is to "show" himself in public for money, but he may change the place and visit this country, where all men illustrate by their merit or misfortune find welcome. It will not be hard to persuade Americans that he is a good enough Irishman.

Reformers Will Insist Upon Vigorous Action Being Taken at Once—Chances of Success.

The friends of Senator Walker, of Arkansas, are very earnest at work for his re-election, with good reasons for believing that they will be successful. Many equally able men offer for the place and are mentioned as likely to contend for it, but Mr. Walker has no faithful to his trust that no good reason can be assigned for succeeding him by a man new to the place and its duties.

The venerable Emperor of Germany, the kaiser, is reported to be rapidly declining in health so as to force the conviction that his death may be looked for any day. He is no longer equal to his arduous duties, but his condition is not so serious as is supposed. He is still able to perform his duties, and his health is not so bad as is supposed. He is still able to perform his duties, and his health is not so bad as is supposed.

ARRANGEMENTS for the races to take place next week have been completed by the Memphis Jockey Club, and the weather permitting there is reason to hope that the reputation of the club for furnishing the best sport possible with the best horses in the country, containing full purse, will be maintained. The Memphis Jockey Club, and the weather permitting there is reason to hope that the reputation of the club for furnishing the best sport possible with the best horses in the country, containing full purse, will be maintained.

It was stated in Washington that Gen. Adam Balaud had resigned the office of consul-general at Havana, because of a dispute with the State Department about the New York Daily News. He was requested to resign because he was in arrears to the government. This is just what might have been expected from the penitentiary and demagogic that may be the strenuous efforts of Gen. Grant, then President, and his friends.

The arrival of Materna and Scaria and Winkelmann in New York, and the inauguration of the series of music festivals at Boston last night, have been the first steps to the music festival to be given here on the 4th and 5th of June—the one great event that, edifying all people, is to establish the reputation of Memphis as the music center of the South beyond question. From the surrounding country there come about a hundred and fifty musicians of visitors will have to be provided for during concert week, and that the audience will embrace the elite of the population of a wide scope of country—more than 200 miles round about Memphis.

The crimes of the Irish dynamite are inexcusable on any plea of suffering in Ireland. They are directed for the most part by idiotic enthusiasm and by the treacherous villainy like Carey and Patrick N. Fitzgerald, who, arrested only a few days ago, have confessed to the worst of crimes.

The arrival of Materna and Scaria and Winkelmann in New York, and the inauguration of the series of music festivals at Boston last night, have been the first steps to the music festival to be given here on the 4th and 5th of June—the one great event that, edifying all people, is to establish the reputation of Memphis as the music center of the South beyond question. From the surrounding country there come about a hundred and fifty musicians of visitors will have to be provided for during concert week, and that the audience will embrace the elite of the population of a wide scope of country—more than 200 miles round about Memphis.

CHICAGO has never been so stirred as it has been over the bogus dispatch from London which purports to be an article from the Pall Mall Gazette, written by Mr. Matthews Arnold. In it the apostle of "sweetness and light" is said to have stated that everybody who knows Chicago will admit it is true—that there is only one appearance, the semblance, the make-believe culture there, a thin, insubstantial, and speak, that is occasionally broken through by the red-hot hell beneath, and then the thick blue-black pushties of corruption run over, filling the air with a stench that outrivals that of the Chicago river. All the opulence of pork-barreling is up in arms about the article, and the "sweetness and light" are denounced as a delusion and a snare.

Tax heroic Gen. (Chinese) Gordon, in a letter to his equally distinguished brother, Gen. Sir Henry William Gordon, writes that he is sanguine of ultimate success in the Sudan, and that he is not been at variance with the Gladstone policy, but has followed his instructions to the letter. He has been in the Sudan since last August and resumes his engagement with the King of the Belgians to take command of the military portion of the operations of the International African Association. From Brussels he will go direct to the Congo country, and he says he will try to be to the Congo country, and he says he will try to be to the Congo country, and he says he will try to be to the Congo country.

We don't want Cuba, with its mongrel and ignorant population, made up mainly of negroes and Chinese, and the various classes of yellow race, that lie between these extremes. But we do want the prospect of trade with the ever-faithful island. This is the secret of Minister Foster's return to Washington. He has been in Cuba for some time, and he has been in Cuba for some time, and he has been in Cuba for some time.

The New York Herald has, in an elaborate statement of facts concerning the West Shore Railroad company, laid bare a scheme of robbery worse than that of the Credit Mobilier, which was the most successful scheme of the kind. Sixty million dollars have disappeared, and there is nothing to show for it that is tangible to the public eye. Look at the good, pious people, who wonder that good can be so wicked as to invent against corporations, and insist that the State shall remove its sovereignty and supervise the railroads who compel the public to pay interest on watered stock, and who represent nothing but a sham and a robbery. As the World says, this is the West Shore Railroad is an old tale. Where shall we find the United States, where shall we find the road so honestly constructed and managed that the capital on which it has to pay dividends represents only its legitimate and actual cost? Look at the New York Central and Hudson River railroad, with its \$140,000,000 of stocks and bonds, one-half representing fraudulent water! Look at the Erie, with its \$100,000,000, nearly sixty per cent. of which represents the stealings and waterings of years! Look at the elevated railroads, carrying a deluge of capital advanced to three times its legitimate amount by shuffling! Look at the Western Union Telegraph Company, with its capital stock of \$50,000,000, representing an honest \$30,000,000, the outside! What a terrible tax is placed upon the people by these rascals!

APPEAL SPECIALS.

Heavy Wind and Rain Storms at Vicksburg, West Point and Gretna, Miss.

A Regular Cyclone South of the latter Place—Considerable Damage to Property, but No Lives Lost.

No Lives Lost So Far as Heard From—Fire at Helena—Three Stores Burned—Hollywood Notes.

WASHINGTON, April 14.—A large amount of rain fell at Vicksburg, West Point and Gretna, Miss., on Monday night, and a regular cyclone south of the latter place, causing considerable damage to property, but no lives were lost.
